Welcome to the University of Sheffield

I am delighted that you are considering studying at the University of Sheffield International College. The College provides recognised routes into both undergraduate and postgraduate study.

Each year, the University welcomes international students from more than 100 countries. I very much look forward to welcoming you into our thriving community of staff and students here in Sheffield.

Professor Sir Keith Burnett, CBE, FRS

Vice-Chancellor, The University of Sheffield

Extraordinary possibilities

Ambitious students from around the world come to study at the University of Sheffield every year. Why should you join them?

The University of Sheffield is ranked as one of the world's top 100 universities. This extraordinary academic reputation attracts the best lecturers and students from around the world. Along with the dedicated support the International College offers, the University's programmes are designed to help you meet the highest academic standards. Furthermore, Sheffield is a friendly, safe and welcoming city with an affordable cost of living.

If you share the drive, ambition and commitment that sets the University of Sheffield apart, then I hope to welcome you in person soon.

Gosia Wells

Head of International Office,
The University of Sheffield

Sheffield.

“Coming from Jordan to [Sheffield] was a big change. I was nervous at the beginning. Then I found there was so much support. Then it became really exciting and amazing.

I just love the diversity here. You learn a lot more than just the topics you’re studying; you get to learn about people, and cultures, including the British culture, which is really awesome.”

Ghazal, studying Social Policy and Sociology

THE 1ST STUDENT EXPERIENCE SURVEY 2014-15

A special welcome for international students

Our International College offers a dedicated facility where students come to prepare for the challenges of academic life. You'll be in good company, alongside students from all over the world. The modules you will study include specialist subject preparation, English language and study skills that you will need to thrive.

An exceptional academic experience

Everything we do at the University of Sheffield is based on one simple but powerful idea: we won't settle for ordinary. That's how we've become one of the top 100 universities in the world. That's why every one of our academic departments is a centre of excellence. That's why we have an outstanding track record for research and partnerships with industry.

A wonderful student environment

Sheffield has been voted number one in the UK for student experience. A newly expanded Students' Union offers everything from comfortable study areas, restaurants, cafés, shops and even a cinema. With over 250 clubs and societies to choose from, you'll never be short of something to do.

A safe and affordable place to live

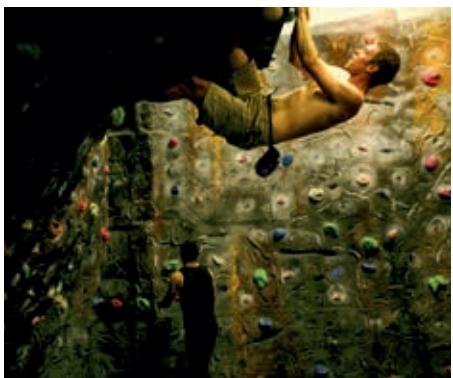

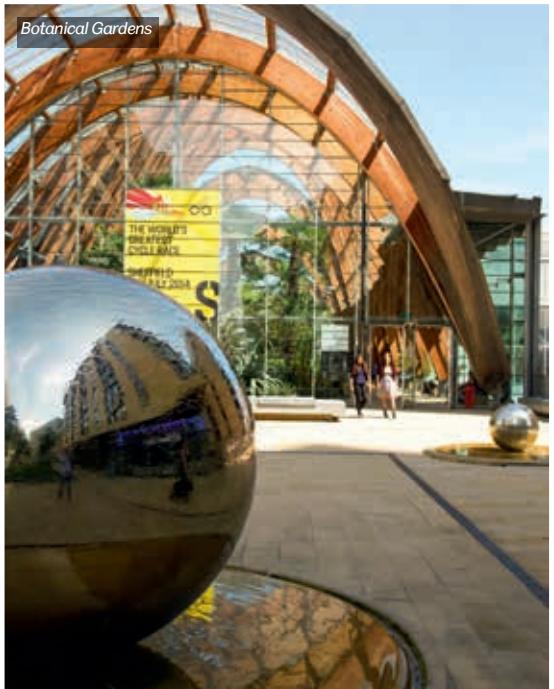

The University of Sheffield is a safe and friendly multicultural city. Our students are valued as a part of the city's vibrant community. It's affordable too, with one of the lowest costs of living of any of the UK's university cities.

The University of
Sheffield is ranked
13th in the UK

to Sheffield*

Crucible Theatre

Lots of our international students tell us they can't quite believe a city can have such clean, fresh air.

Born in Messina, made in Sheffield!

Sheffield is just over two hours by train from London and the fourth largest city in England. Home to 550,000 people including around 55,000 students, you'll find it's an exciting place to be. Large enough to offer a great range of restaurants, shopping, theatre, cinemas, bars, clubs and culture; small enough to find your way around quickly and feel part of the community.

City life and fresh air

Sheffield is known as the UK's greenest city. You'll find lots of lovely parks and open spaces in the city centre. There's a quiet, modern tram system to get you around. The Peak District, one of England's much loved and protected National Parks and home to Chatsworth House, is very close. Just take a short bus ride and you will find mile after mile of unspoilt countryside to explore.

Snooker, football, climbing, walking...

The World Snooker Championship is held at the Crucible theatre each year. Sheffield also boasts two professional football clubs and is known for athletics, cycling, climbing and walking. The University itself has numerous sports and activity clubs. No matter what sport or hobby you enjoy, or have always wanted to try, you'll almost certainly find like-minded people in Sheffield ready to share it with you.

The perfect introduction to studying abroad

For many international students, studying in another country brings some challenges that need a little extra support.

You may find that there is a difference between what you have learned at home and what students have learned in the UK. You'll also need to be able to study your chosen subject in English. You may find you need time to get used to new ways of teaching and more independent learning. And you have to do all of this while getting used to how things work in a foreign country, far from home. This is why we are here to help you get used to your new surroundings.

A dedicated learning environment

At the University of Sheffield International College, we provide a dedicated learning environment for our international students. Over the course of a year, we'll help you to:

Reach the academic level you need in your chosen subject

Learn the study skills and independent learning techniques that will be vital to your successful progression

Develop your English language skills so that you can take part in lectures and tutorials, getting the most from your studies

Above all, we'll give you the confidence that you will need to progress in your studies. We'll also teach you the skills that will benefit you in your future studies and career.

Your home from home

We'll be available to help you from the moment you decide to join our International College.

We can help you with the forms, visas and formalities needed to secure your place smoothly and easily. We'll support you to set up your accommodation and make sure everything is confirmed before you leave home.

Dedicated to international students

The University of Sheffield International College is a dedicated facility for international students.

Our specialist understanding of students with English as a second language and different educational backgrounds makes us experts in helping students prepare for world-class university learning.

Small class sizes with experienced tutors

You will study in small class sizes with teachers experienced in helping students learn in a second language. With a combination of lectures, tutorials, interactive learning and independent study, you'll be able to learn at your own pace. Teachers will monitor your progress and help you build confidence in your subject. They will also help you learn effective ways to study and develop your English language capability.

State of the art learning environment

At the forefront of innovation and technology, the International College offers you a first class learning environment. Lecture rooms are equipped with the latest technology and WiFi is fast and easy to access.

A great place to relax

The campus is also a great place to relax and make new friends. Quality, affordable food, comfortable lounges and coffee shops make the International College a friendly place to be.

Our Student Progression Unit

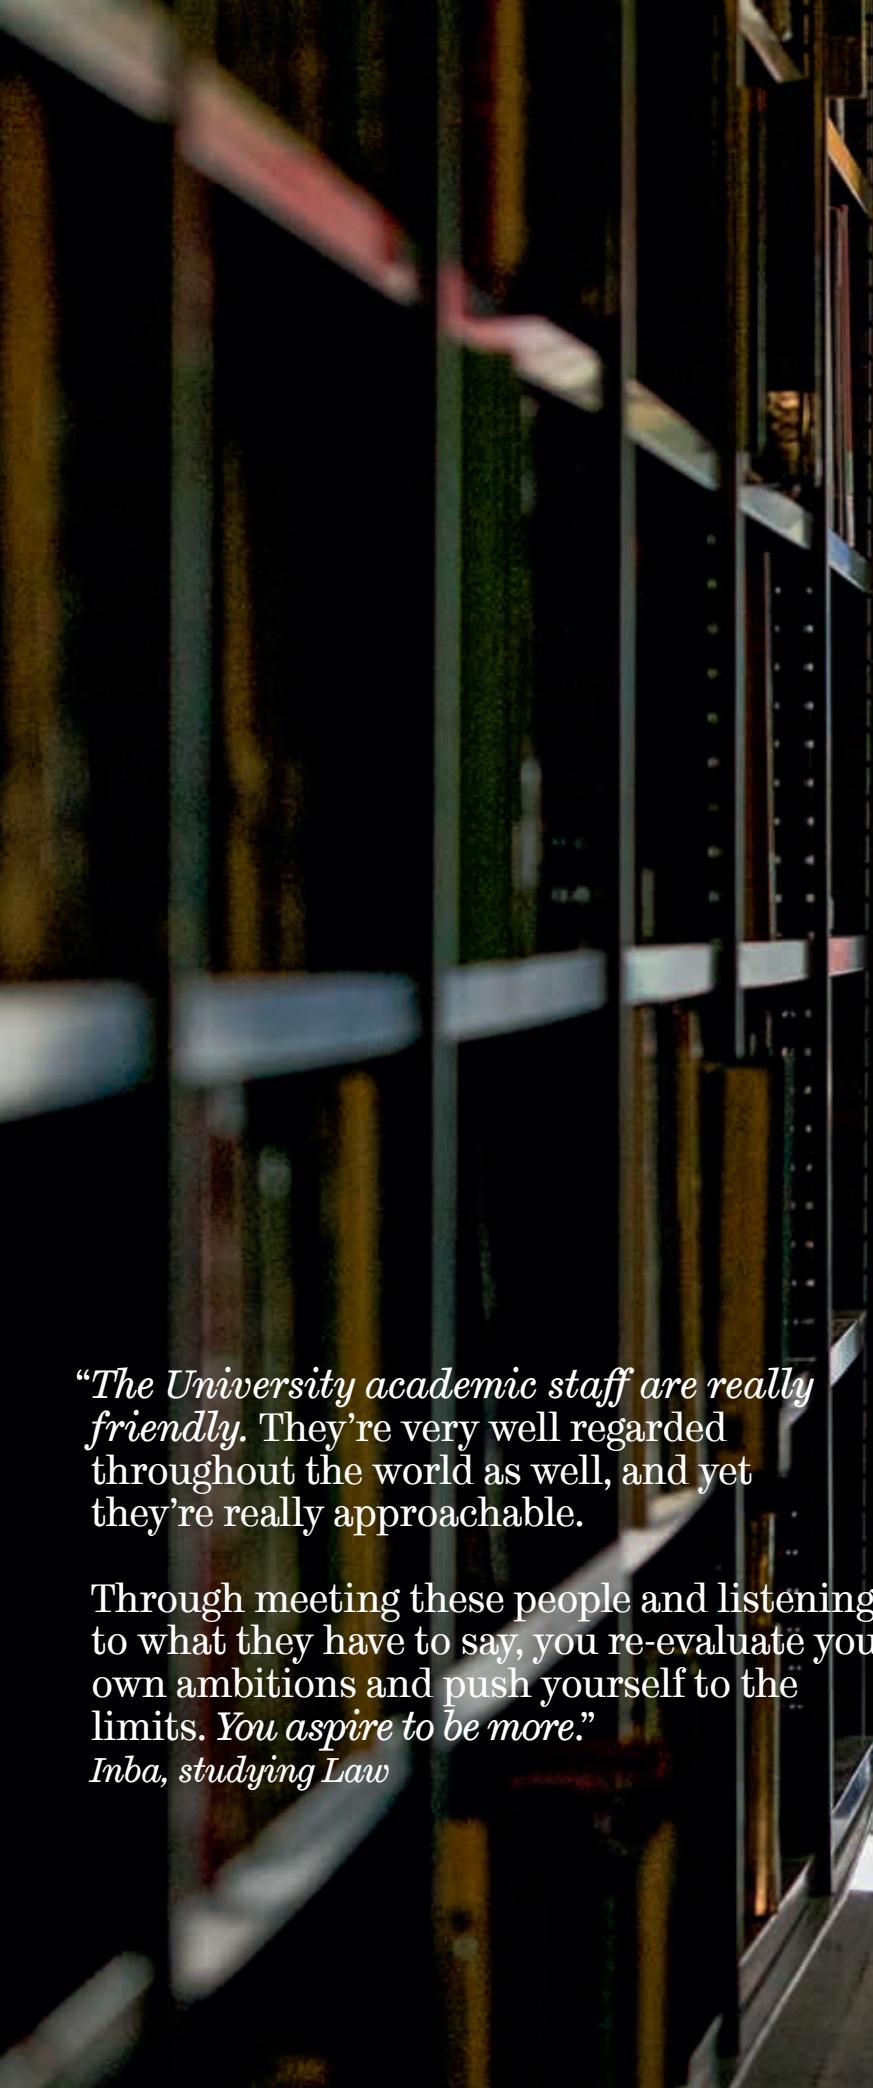

Our aim at the International College is for you to progress to your chosen degree programme at the University of Sheffield. Our dedicated Student Progression Unit will support you during your time at the College and work with you towards achieving this goal.

Our Student Progression Unit will also support you if you do not achieve the required progression level for the University of Sheffield at the end of your programme. The Student Progression Unit works with a range of Study Group university partners to ensure that students who pass our programmes have a backup choice and can find a place at a university within the UK.

A friend before you arrive

The University of Sheffield International College and the University work closely to make sure all students feel truly welcome, even before you study here. If you have questions about life in Sheffield, we'll do our best to put you in touch with a current University student to answer your questions.

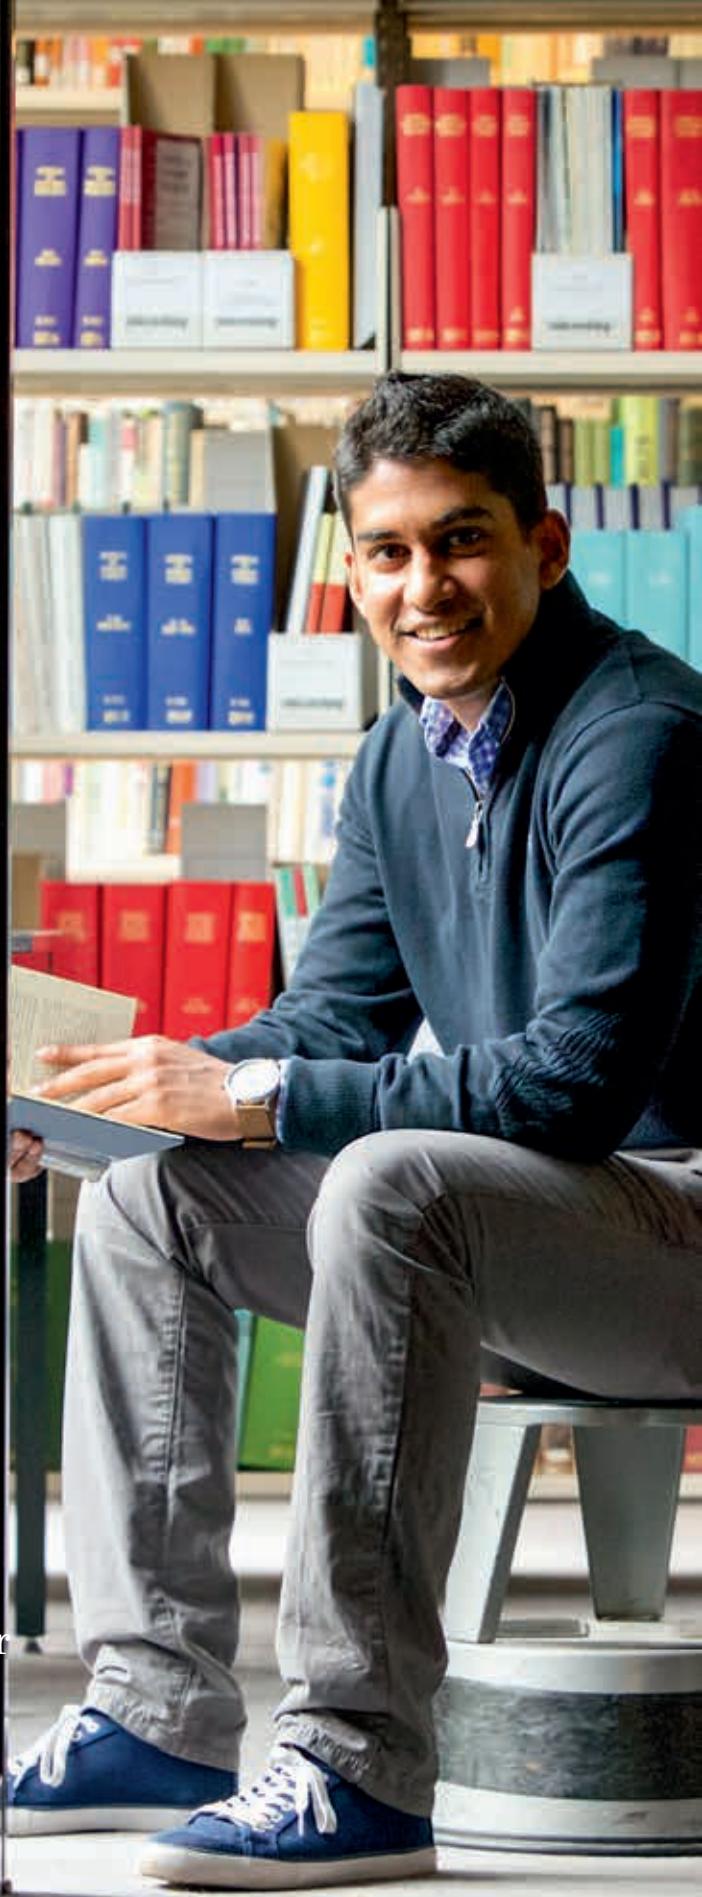

When you arrive, you'll find friendly, helpful and experienced staff in the International College ready to help you settle in. The Students' Union also has an International Officer, ready to provide advice and support whenever you feel you need a helping hand.

"The University academic staff are really friendly. They're very well regarded throughout the world as well, and yet they're really approachable.

Through meeting these people and listening to what they have to say, you re-evaluate your own ambitions and push yourself to the limits. *You aspire to be more."*

International Foundation Year

...an intensive two or three term programme designed specifically to provide you with a path to degree study at the University

The international foundation year is an intensive two or three term programme of academic subjects, study skills and English language preparation. It has been developed for international students and designed specifically to provide you with a path to degree study at the University.

If you successfully complete your programme, you are guaranteed entry on to a relevant undergraduate degree programme at the University of Sheffield.

Study structure

You can choose one of two foundation routes:

Business, Law and Social Sciences

This will prepare you for an undergraduate degree in the Faculty of Social Sciences, including the Management School and the School of Law.

Science and Engineering

This will prepare you for an undergraduate degree in the Faculty of Engineering or Faculty of Science.

You will study core modules common to each route, plus subject-specific modules. These have been carefully designed to focus on the academic areas most useful to your chosen degree.

University-style teaching

The University of Sheffield International College introduces you to the style of teaching that you will experience on your degree. Taking part in tutorials, seminar-style classes and larger group lectures means that you will be well prepared for an undergraduate degree at the University.

Assessment

You will be assessed regularly throughout the course. Your development is monitored through continuous coursework and assessments at the end of each term or module. This may take the form of examinations. You will also need to complete a series of presentations and extended essays as part of your overall assessment.

Study plan options

| IELTS or equivalent | Duration | Apr | Jun | Sept | Jan | Apr | Jun | Sept |
|---------------------|----------|-----|-----|------|-----|-----|-----|------|
| 6.0 | 2 terms | | | | | | | |
| 5.0 | 3 terms | | | | | | | |
| 5.0 | 3 terms | | | | | | | |
| 4.5 | 4 terms | | | | | | | |
| 4.5 | 4 terms | | | | | | | |
| 4.0 | 5 terms | | | | | | | |

■ English Language Preparation Programme

■ Vacation

English Language Preparation

If you need further language training before you start your three-term course, you can join our intensive English Language Preparation programme (ELP).

You will need an IELTS score of 5.0 or the equivalent to begin the three term International Foundation Year.

If you need additional language training before you start your international foundation year, you can join our intensive English Language Preparation programme (ELP). This course is taught in partnership with the University's English Language Teaching Centre and will improve your English language skills to the necessary level.

If you have an IELTS level of 4.0 in all skills or the equivalent you will need two terms of ELP. If you have an IELTS level of 4.5 in all skills or the equivalent you will need one term of ELP.

At the end of your ELP programme you will start the international foundation year, providing you have achieved the required module grades.

International Foundation Year Key Information

Course length

Three terms: September to June or January to August
Two terms: April to August

Entry dates

Three terms: September 2015 and January 2016
Two terms: April 2016

Term dates

September start:

Term 1: 21 September 2015
Term 2: 6 January 2016
Term 3: 4 April 2016

January start:

Term 1: 6 January 2016
Term 2: 4 April 2016
Term 3: 20 June 2016

April start:

Term 1: 4 April 2016
Term 2: 20 June 2016

Course structure

Modular course with combination of subject-specific modules, academic skills and English modules

Age on entry

Students should be 17 years of age on entry to the International College

Entry requirements

Academic: Good high school graduation grades or equivalent
English language: Three term programme - IELTS 5.0, or Pearson Test of English or equivalents

Two term programme - IELTS 6.0, or Pearson Test of English or equivalents

Scholarships

Scholarships are available. Please see page 45 for more details.

International Foundation Year in Business, Law and Social Sciences

The International Foundation Year in Business, Law and Social Sciences provides a route to a number of degrees in the Faculty of Social Sciences. This includes the Management School and the School of Law.

Your International Foundation Year will include a combination of academic subjects, study skills and English language preparation.

Your programme will be tailored to allow you to prepare for your chosen degree, studying the most relevant modules to your subject area. Some of the modules listed will be compulsory for progression onto specific degree programmes at the University.

English and Skills Modules

- English and Skills for University Study 1
- English and Skills for University Study 2
- English and Skills for University Study 3
- Academic and Pastoral Support
- Applied Academic Writing Skills
- Intensive Reading and Vocabulary

Business Pathway Modules

- Academic and Professional Practice Skills for Social Sciences
- Accountancy and Finance
- Economics and Society
- Globalisation
- Introduction to Business
- Maths 1
- Maths 2
- Principles of Economics
- Statistics for Social Sciences

Law & Social Science Pathway Modules

- Academic and Professional Practice Skills for Social Sciences
- Biology 1
- Economics and Society
- Globalisation
- Law
- Maths 1
- Politics
- Sociology
- Statistics for Social Sciences
- Urban History

An international reputation for high achievement

Faculty of Social Sciences

The majority of the faculty's research submissions ranked in the top 10 in the UK, and five of its submissions were rated in the top 5.
Research Assessment Exercise (RAE), 2008

Welcome to the Faculty of Social Sciences, one of the leading and most diverse groupings of social science expertise in the UK. Focusing on innovation and diversity, we bring together 13 interdisciplinary departments, each one dedicated to developing the highest quality graduates. You can choose from a wide range of courses in both classical and less traditional social science disciplines.

Inspiring you to learn

We can promise you an exciting and dynamic environment in which to learn. Driven by the pioneering research of our academics, our teaching is always innovative and inspirational. Our staff will make sure you learn the skills and the knowledge you need to develop and grow.

Renowned for the quality of our research

All our faculty staff are continually involved in research projects. This means you benefit from their knowledge of the latest developments and debates in social research.

Looking ahead with new investment

We're excited to report that the faculty has recently received major investment in new facilities, including the Interdisciplinary Centre of the Social Sciences building (ICOSS). Here, academics carry out multidisciplinary research that will inform tomorrow's social policy.

We are a UK top 5 university for Journalism, Information Management and Politics.*

The Times 2014 Good University Guide

Teaching excellence for tomorrow's business stars

The Management School

If you're looking for a career in business and management, our world-leading Management School can offer you the perfect platform for success. Join us in this exciting multi-disciplinary School to see the benefits of real-world experience combined with teaching excellence and ground-breaking research.

Diverse study areas that challenge and inspire

Our programme of learning is specifically designed to enhance your career prospects. Our study areas involve a broad coverage of the modern business environment, including:

- Marketing
- Consumer Behaviour
- Corporate Social Responsibility
- Human Resource Management
- International Business
- Management Information Systems

Learn from real-life practitioners

Our lecturers are of the highest calibre. Many have held highly successful roles in dynamic businesses, and continue to advise a range of national and international organisations.

"The lectures and tutorials are academically interesting, and applied to real-world case studies which is extremely useful."

Jack Smith, BA (Hons) Business Management

Our Management School is one of only 58 Triple Crown accredited business schools in the world

Investing in tomorrow

By demonstrating excellence in everything we do, we've become one of the global elite of business schools. We're accredited by the three most influential business school accreditation bodies – AMBA, EQUIS and AACSB. And we're looking ahead to even more success with an £11.5 million investment into the new Crookesmoor Building. This world-leading facility and multi-purpose teaching space offers you an inspirational area in which to learn and develop your business skills.

The University of Sheffield is ranked in the UK's top 20 for business and management research*
**Research Assessment Exercise (RAE), 2008*

Preparation for *professional life*

The School of Law

Our distinguished alumni include numerous judges and two Lord Justices of Appeal. Our alumni have gone into careers not only in law, but in business, banking and teaching.

Sheffield's School of Law excels at getting students ready to face the challenges of professional life. Our law degrees have a strong international focus. They are designed to produce lawyers who are equipped with global awareness and the best technical skills.

Highly-regarded academic staff to guide you
We're here to support you at every step of your learning with excellent academic staff that include personal tutors and qualified solicitors.

Our academics are internationally recognised for their research; many have been involved in advising on government policies and commenting on legal issues in the media.

Experience a vibrant learning environment with real client cases

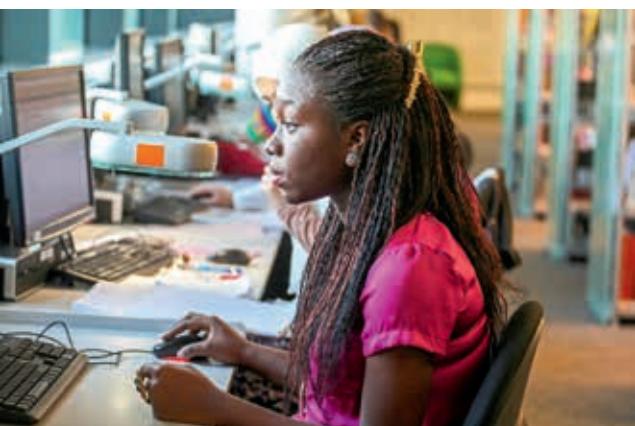

You'll have the chance to do practical client work and take part in our free legal clinic. We also offer you the opportunity to join the Miscarriages of Justice Centre, where you'll work on real-life criminal justice cases. And you can practice your advocacy skills in our on-campus moot courtroom. We have links with over 40 partner universities across the world that help to enhance our teaching, and your learning.

Graduates who are in demand

The career prospects for Law School graduates are excellent. Many of our international graduates have illustrious careers in law firms, corporates, government and civil society organisations around the world.

Transforming knowledge into success

The Faculty of Science

Sheffield Science graduates have excellent knowledge of their subject as well as the personal and intellectual qualities needed for rewarding employment.

At Sheffield's Faculty of Science, we've created an extraordinary learning environment with an enviable reputation for both teaching and research. We offer you a choice of seven departments covering the classical science subjects including maths, physics, chemistry, biology and psychology.

Whichever department you choose, we will make sure all graduates enjoy the best possible success in their chosen careers.

Creative and innovative teaching methods

We can promise you a stimulating and inspiring learning environment. This is reflected in the National Student Survey, which shows us to be highly committed to the delivery of excellent teaching. Our staff are some of the leading researchers in their fields, which means you'll have access to the most up-to-date findings.

In the best company

As an undergraduate, you'll be in the company of top scientists. Scientists at the University of Sheffield played an important role in the search for the Higgs Boson particle at the Large Hadron Collider in CERN. Professor Dan Tovey of the Department of Physics and Astronomy led a team that worked on experiments that led to its discovery.

We're proud of our close relationships with commerce, industry and the professions. These relationships allow us to continue our research into many areas. Giving us the chance to, for example, develop new medical treatments and improve drug safety.

The Faculty of Science boasts two Nobel Prize winning scientists: Sir Richard Roberts for his discovery of 'split genes' and Sir Harold Kroto, who discovered buckminsterfullerene, a type of carbon.

We attract an annual research income exceeding £27 million with impressive year-on-year growth

The home of innovation

The Faculty of Engineering

Our research income recently overtook the University of Cambridge, confirming our status as one of the best institutions in the world to study engineering.

At Sheffield we've created one of the biggest and most prestigious engineering faculties in the UK. We're renowned for innovation and the promotion of new ideas and technologies, as well as for teaching and research excellence.

Investing in tomorrow's engineers

With seven academic departments and two interdisciplinary programme areas, we cover all engineering disciplines. You will work with students from other courses to tackle real engineering challenges and on projects designed by our industrial partners. Our vision is to be the best engineering faculty in the UK. That's why we're investing £134 million in improving engineering teaching facilities.

Partners in industry

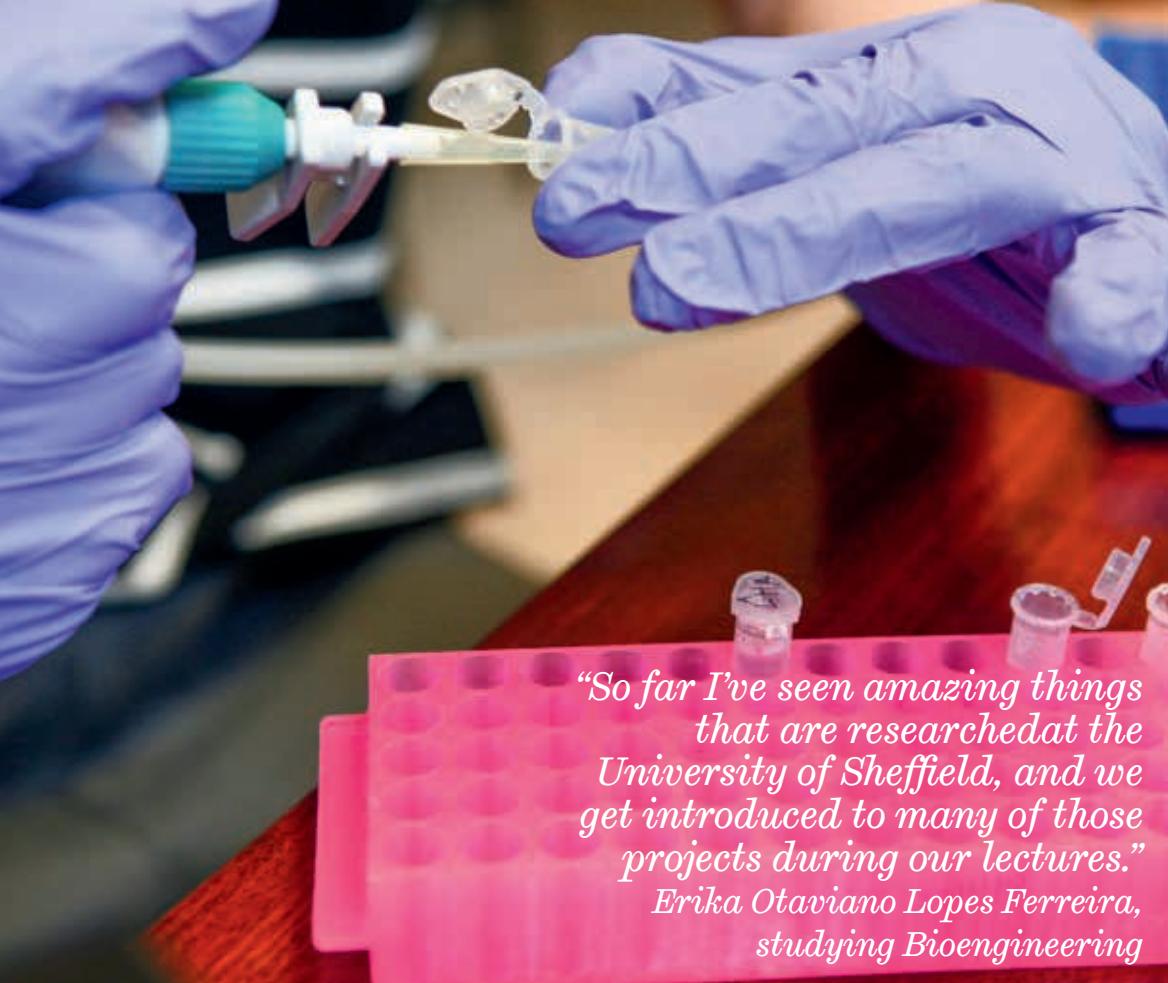

As well as top quality teaching from our leading academics, our strong links with industry give you access to the latest research and innovation. For example, we're the only research partner in Europe of the Boeing Corporation. Together, we've formed the Advanced Manufacturing Research Centre here in the city. We also boast four Rolls-Royce University Technology Centres. Plus, British Nuclear Fuels funds the University's Centre for Waste Immobilisation Technology in the Department of Materials Science and Engineering.

Our graduates are in demand worldwide, with many of our international students going on to work with global names.

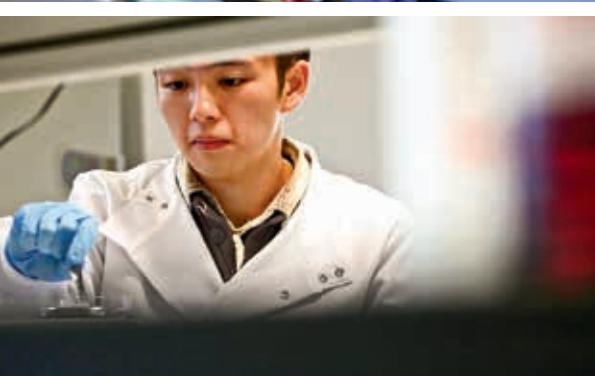

The Diamond will open in September 2015. This £81 million building will create a fantastic place for modern interdisciplinary teaching. As well as specialist engineering teaching facilities, the building will also house a range of lecture theatres, seminar rooms, open-plan learning spaces, library services and social spaces, including a café.

In our latest survey,
93%
of our graduates
expressed satisfaction
with their course.
(Faculty survey 2012)

“So far I’ve seen amazing things that are researched at the University of Sheffield, and we get introduced to many of those projects during our lectures.”

*Erika Otaviano Lopes Ferreira,
studying Bioengineering*

Our faculty has over 4,000 students, 900 staff and research-related income worth more than £50 million a year

Five of our engineering departments are among the UK’s top 10
(The Guardian Good University Guide 2014)

“They support your PhD, and they offer you opportunities to do teaching or other kinds of academic jobs, so while you improve yourself, you also feel you benefit the other students here.

In China, the culture is quite different. I think my time here has taught me how to be confident; how to face everything. It's really excellent. By coming here, it will benefit my whole life.”

Dawai, studying Urban Design

Pre-Masters

The pre-masters programme at the University of Sheffield International College offers a path to postgraduate study for international students.

The pre-masters is an intensive two or three-term programme of academic subjects, study skills and English language preparation. It has been designed specifically to prepare you for taught masters study at the University.

If you do not meet the entry requirements for a masters degree, or want to refresh your language skills and knowledge, our specialist programme is for you. Once you successfully complete your pre-masters, you are guaranteed entry on to a relevant taught postgraduate degree programme.

Study structure

You can choose one of two pre-masters routes:

Business, Law and Social Sciences

This will prepare you for a taught postgraduate degree in the Faculty of Social Sciences, including the School of Law or the Management School

Science and Engineering

This will prepare you for a taught postgraduate degree in the Faculty of Engineering or Faculty of Science

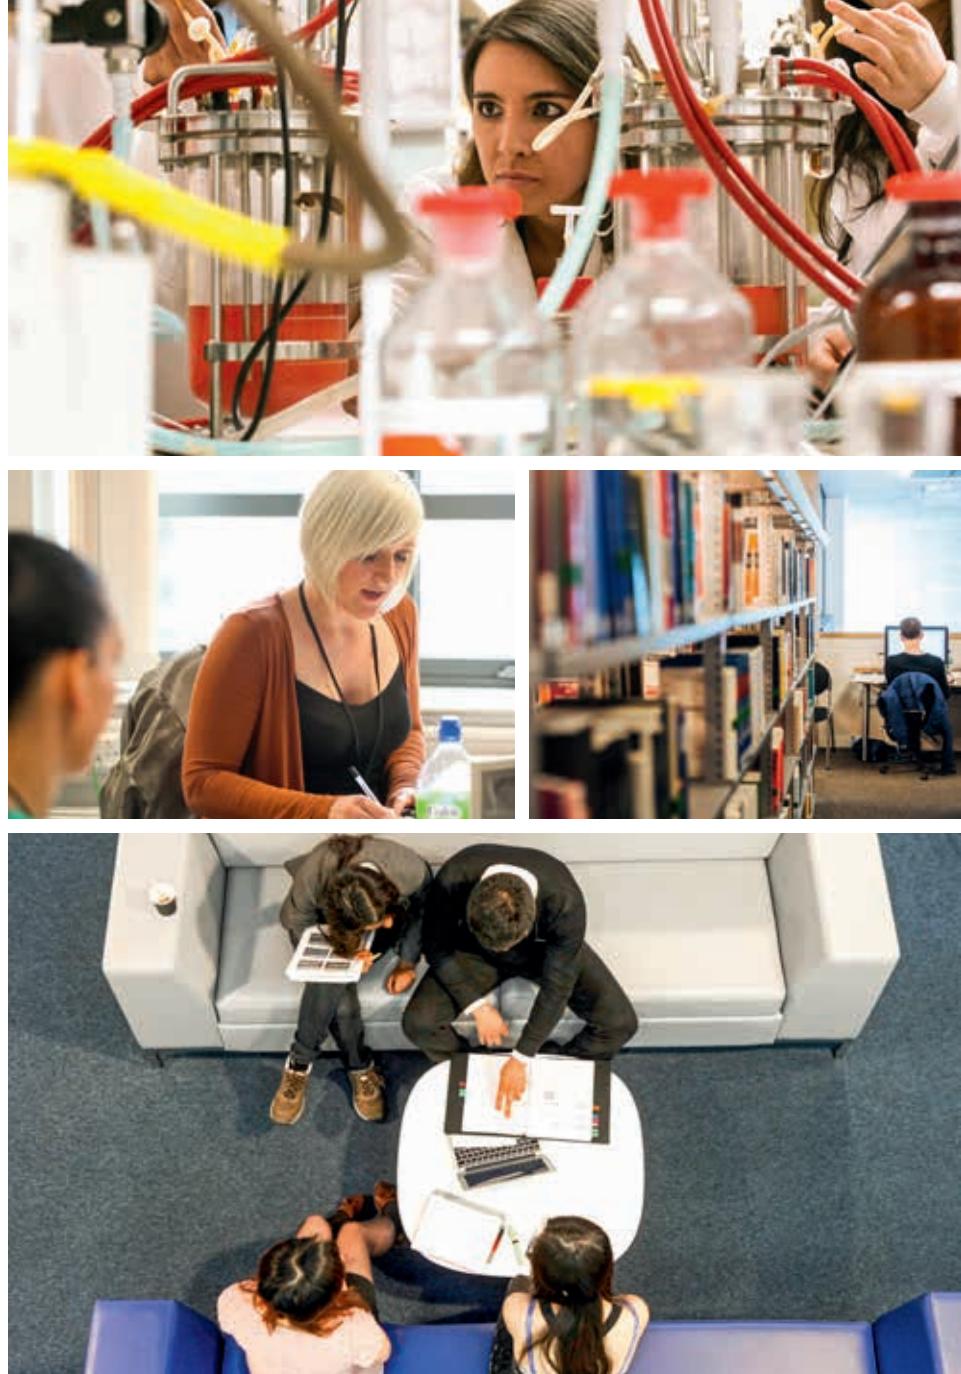

You will study core modules common to each route, plus subject-specific modules. These have been carefully designed to focus on the academic areas most useful to your chosen degree.

University-style teaching

The University of Sheffield International College introduces you to the style of teaching that you will experience on your degree. Taking part in tutorials, seminar-style classes and larger group lectures will prepare you for your masters at the University.

Assessment

Your development will be assessed regularly throughout your course. This will make sure you achieve the standard needed for progression onto your chosen postgraduate degree. Assessments include coursework, unseen final examinations at the end of each module, presentations and extended essays/case studies.

Study plan options

| IELTS or equivalent | Duration | Apr | Jun | Sept | Jan | Apr | Jun | Sept |
|---------------------|----------|-----|-----|------|-----|-----|-----|------|
| 6.0 | 2 terms | | | | | | | |

Pre-Masters Language Preparation

If you need additional language training before you start a three-term Pre-Masters, you can join our intensive English for Pre-Masters programme (EPM)

You will need IELTS 5.5 or equivalent to begin the pre-masters.

If you need additional language training before you start your pre-masters, you can join our intensive English for Pre-Masters programme (EPM). This is taught in partnership with the University's English Language Teaching Centre. The course will improve your English language skills to the necessary level equivalent of IELTS 5.5.

If you have an IELTS level of 4.5 in all skills or equivalent you will need two terms of EPM starting in either April or June. If you have an IELTS level of 5.0 in all skills or equivalent you will need one term of EPM. You can either start in June or September – see Study Plan options.

This programme will prepare you to take an IELTS exam in order to achieve the English requirement for the following three terms of study.

Pre-Masters Key Information

Course length

Three terms: September to June or January to August
Two terms: January to June or April to August

Entry dates

Three terms: September 2015 and January 2016
Two terms: January 2016 and April 2016

Term dates

September start:
Term 1: 21 September 2015
Term 2: 6 January 2016
Term 3: 4 April 2016

January start:

| | |
|------------------------|------------------------|
| Three Term | Two Term |
| Term 1: 6 January 2016 | Term 1: 6 January 2016 |
| Term 2: 4 April 2016 | Term 2: 4 April 2016 |
| Term 3: 20 June 2016 | |

April start:

| |
|----------------------|
| Term 1: 4 April 2016 |
| Term 2: 20 June 2016 |

Entry requirements

Academic: Recognised degree - must be in a related field for some subjects

English language:

Three term programme - IELTS 5.5, or Pearson Test of English or equivalents

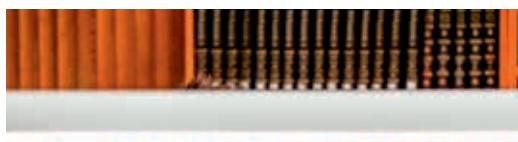

Two term programme - IELTS 6.0, or Pearson Test of English or equivalents

Scholarships

Scholarships are available. Please see page 45 for more details.

Pre-Masters in Business, Law and Social Sciences

The Pre-Masters in Business, Law and Social Sciences provides a route to a number of Masters degrees in the Faculty of Social Science, including the Management School and School of Law.

Your Pre-Masters will include a combination of academic subjects, study skills and English language preparation.

You will study modules relevant to your chosen subject area. Some of the modules listed will be compulsory for progression onto specific degree programmes at the University.

Core modules

- English and Skills for University Study 1
- English and Skills for University Study 2
- English and Skills for University Study 3
- Intensive Reading and Vocabulary
- Academic and Pastoral Support
- Professional Skills and Planning 1
- Professional Skills and Planning 2
- Professional Skills and Planning 3
- Applied Academic Writing Skills

Business, law and social sciences pathway modules

- Designing Research Projects
- European Democracies
- Introduction to Business
- Introduction to Economics
- Introduction to Law
- Introduction to the Urban Environment
- Maths and Statistics
- Social Sciences for PG Studies

We're the
only Russell
Group university
in England to run
the Legal Practice
Course (LPC).

In the 2013 National
Student Survey,
the Department of
Landscape achieved
a score of 100% in
overall student
satisfaction.

Progression to the University is subject to passing the Pre-Masters at the required level. Visit our website for the latest progression information.

68%
of our research in the Faculty of Engineering is rated as '**world leading**' or '**internationally excellent**'.

The University was rated in the **top 10 in the UK** for 'research power', with many Science departments ranking even higher.

Moving on with your Masters

Research areas at Sheffield

The University of Sheffield has a fantastic reputation for research. It is part of the respected Russell Group of universities, the association of leading UK research-intensive universities and makes a significant contribution across fields every year.

Faculty of Social Sciences

Research excellence in the Faculty of Social Sciences

We're committed to making a positive difference in the world which is why we're supporting four key areas of research: Sustainable Growth, Digital Society, Wellbeing and the Life Course, and Inclusive Society. As a postgraduate, you'll have the opportunity to develop your studies in an inspiring and challenging environment, supervised by respected tutors. You may also benefit from the significant research investment we attract from UK Government and European Framework programmes.

In 2013, we won two major prizes from the Economic & Social Research Council
(the UK's primary funder of social science research)

School of Law

Ground-breaking law and criminology research

Here at the School of Law, we have a dynamic and exciting research culture. We're respected globally for our legal, socio-legal and criminological research. You'll have access to an inspiring range of seminars, conferences and workshops, and great supervision from respected tutors. There are also many clusters and groups on offer, designed to stimulate debate and new research. We also run a Knowledge Exchange where you can forge links with the business and wider community, locally and nationally.

The School of Law has a 100% success rate for PhD completions within the 4-year limit
As required by the UK Research Councils

Management School

A thriving research culture for tomorrow's business

Research in the Management School gives you the chance to explore your own ideas and develop a range of skills. Our thriving research culture is driven by our research centres, which focus on contemporary business issues such as sustainability, ethics and social responsibility. With the supervision of experienced and respected tutors, you will be inspired to push your ideas further. You'll also be able to attend a range of seminars featuring international speakers, stimulating discussion and your own research.

We're among the UK's top 20 for ground-breaking business and management research

Faculty of Engineering

One of the best engineering research faculties in the UK

We're one of the best institutions in the UK in which to study engineering at postgraduate level. As part of the Faculty of Engineering, you'll be joining a research-led learning environment that's acknowledged as one of the best engineering faculties in the UK. What makes us different is our multi-disciplinary approach, allowing you to work across departments in the faculty. What's more, we've recently invested £21 million in an Engineering Graduate School, which will become the centre of our postgraduate research and teaching.

Many of our graduates go on to work for large national and international companies including Rolls-Royce, Vodafone and Intel

Faculty of Science

World-class research at the Faculty of Science

You'll join more than 700 others who are carrying out research in the faculty or studying one of our postgraduate taught programmes. Postgraduate students also enjoy close links with commerce and industry, giving you a real insight into new thinking and development. For example, our research into the molecular life sciences is helping companies like Astra-Zeneca and Pfizer to develop new treatments and improve drug safety. By the end of your Masters you will be ready for scientific study in a commercial or academic environment.

Growth, investment, innovation

The University is growing and investing to provide you with the perfect environment for success.

The Diamond - a sparkling new addition

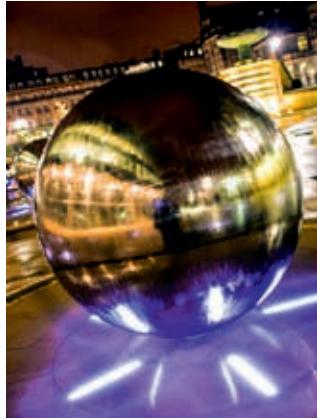

This new building will provide undergraduate teaching spaces for the Faculty of Engineering as well as facilities for students from other faculties. These include specialist teaching laboratories, lecture theatres, a jet engine and control room, virtual reality suite, library services and social spaces, a café and media editing booths.

This £81 million investment is the largest ever in teaching and learning by the University. It cements the commitment to providing the best facilities in the UK, if not the world, and is on target to open for September 2015.

World-class across the city

The world-class facilities don't end with The Diamond. We have been investing in the buildings across our campus to make sure you'll have access to the best facilities.

Our Management School was moved to a redesigned and refurbished research and learning environment in 2013. Just before that, the award-winning Students' Union had a £5 million renovation and the Information Commons, a contemporary 24/7 library and study space opened in 2007. There are another three libraries on campus as well so you'll always have somewhere to study quietly on your own or in a group.

Students' Union

The Diamond will open the door to growth and investment, making a huge contribution to the Sheffield and regional economy as well as providing staff and students with the environment they need to grow and thrive.

Living in Sheffield

Sheffield is the fourth largest city in England and is still close enough to the countryside to take in the fresh air

There is so much to do in Sheffield. You could spend an evening at one of the theatres or go to a football match to see one of Sheffield's two teams. There are plenty of concerts at the many music venues, plus shopping, cinemas and many bars and restaurants.

The UK's greenest city

Sheffield is the UK's greenest city and offers many spaces for you to relax in the sunshine or rain. For example, the indoor Winter Gardens in the city centre offer a sheltered place to relax. If you're looking for more space, the Peak District National Park is just outside the city - perfect for hiking, climbing or a picnic.

A safe, friendly and affordable home

Sheffield is a safe and friendly multicultural city. This was proven when the UK Peace Index ranked Sheffield as England's safest major city in 2013.

The cost of living in Sheffield is also low compared to other student cities in the UK. Accommodation, travel and entertainment are all available at affordable prices. Most university buildings are within a short walking distance. It's easy to get around the city on foot but trams and buses are also available.

Sheffield is home to more than 50,000 students and most places offer student discounts. Make sure you keep your student ID on you at all times!

Meeting people is easy

The Students' Union is central to student life in the UK. The University of Sheffield has the best in the UK - it has been voted number 1 in the Times Higher Education Student Experience Survey every year since 2010. This is the heart of the university, where you can choose from hundreds of societies and find student support. The Students' Union has its own bar, cafe and restaurant run by students. It also houses the council which represents student issues - international students even have a dedicated officer.

We are International

The We Are International campaign was started by Sheffield students. The goal is to highlight the importance of welcoming international students to world-leading universities. The award-winning campaign has been embraced across the UK and Sheffield still leads the way. You can get involved by watching our helpful videos about visa applications and using the popular hashtag **#standbyme** on Instagram or Twitter.

Sheffield and You

When you join The University of Sheffield International College, you become a part of the University. You can join societies, start your own clubs and get involved in campaigning for a better future. As an international student here, your contribution will be valued and respected. Additionally, the city and everything it has to offer will be easily accessible to you.

Join in the fun by signing up to a society.

Here are just a few examples of what's on offer:

- Sheffield volunteering
- Film-making
- Engineers Without Borders
- Fashion
- Sheffield Entrepreneurs
- Natural History
- Dance
- Faith groups
- DJing
- Sports

**Best student accommodation in the UK
(ULiving CUBO Awards 2012)**

85%
of student accommodation is in the city's most sought after district

Living in the city

When you're not busy studying or socialising, you'll need somewhere to call home.

Choosing your accommodation

Many people find they meet their lifelong friends when living in student accommodation. It is a part of student life and a big step in finding your independence after living at home. You will be placed in an apartment with people from around the world also experiencing the same introduction to studying in the UK.

The University of Sheffield International College offers you the opportunity to live in the heart of the city centre of Sheffield. All of our residences are within walking distance from the local amenities and the International College.

The residences are staffed 24/7 and all of the rooms are single occupancy. Each residence offers self-catering facilities, although with so many restaurants and cafés you will be spoilt for choice. All of the utilities (gas, electricity, water, internet) are reflected in the rents, as a guide they typically range from £130-£150 per week.

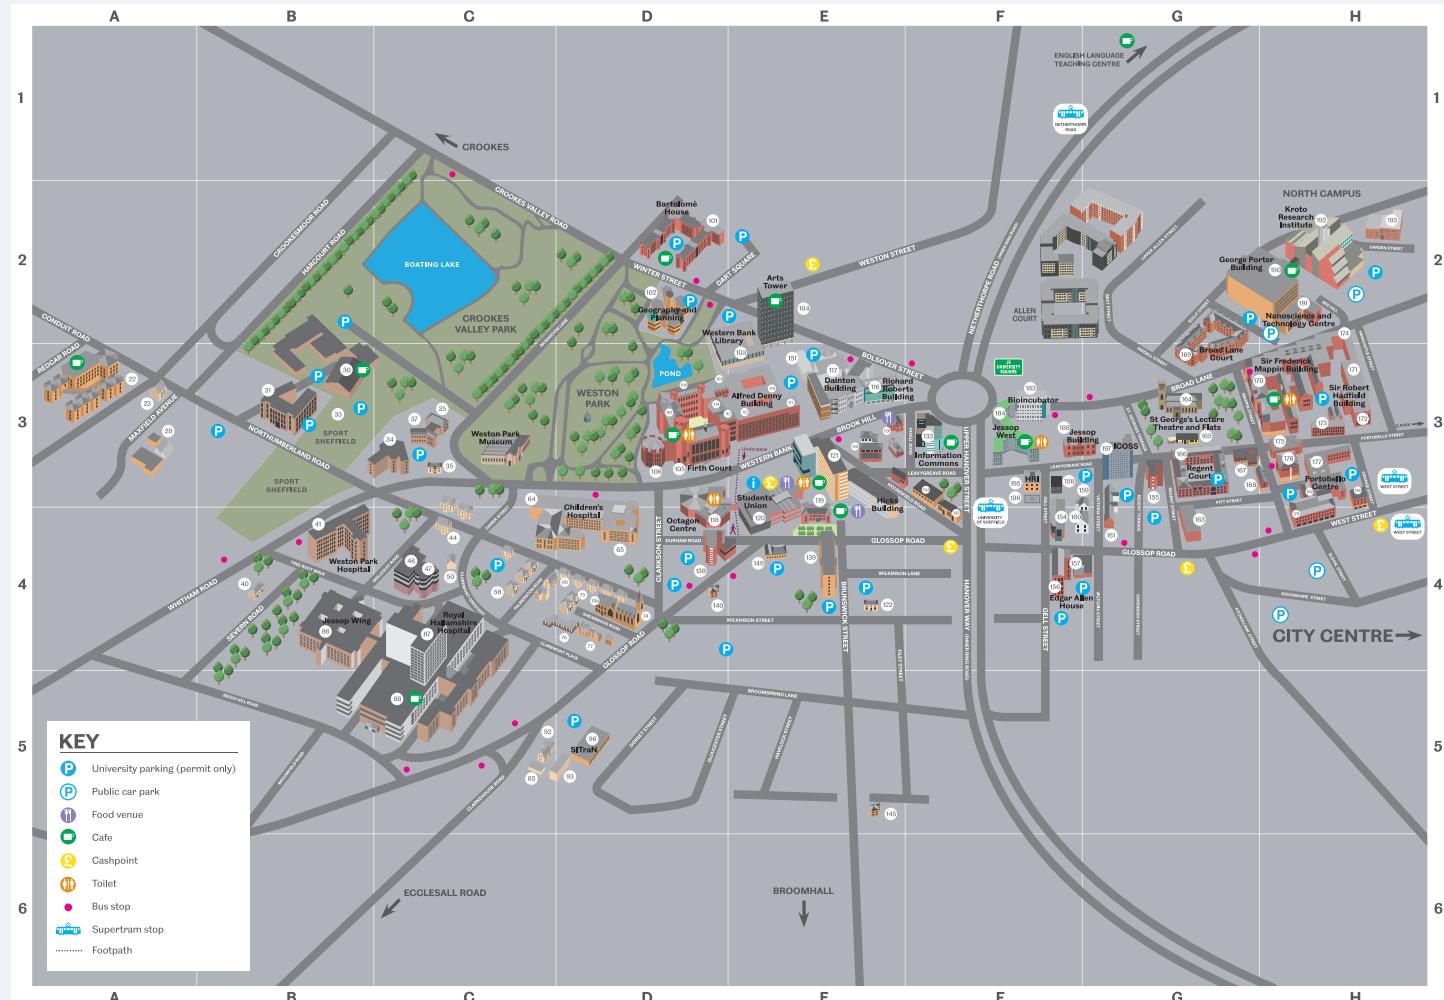

A typical room includes a bed, study desk, chair, storage facilities and the majority of the options include en-suite bathroom facilities. Kitchens are fully-equipped with a fridge, freezer, cooker and microwave.

Alternative accommodation

There is also the option to arrange your own private accommodation. If you choose to do this, we advise that you arrange your accommodation as soon as you confirm your place. We can assist you during this process, just ask your agent or Student Enrolment Adviser.

Finding your way around the University of Sheffield campus

© The University of Sheffield 2014 007MAC

Where is Sheffield?

Sheffield is in the county of South Yorkshire, in the north of England. There is plenty to do in the city and surrounding area and you can easily travel around the UK from there.

Manchester less than an hour by train or 1 hour and 30 minutes by car.

Birmingham up to 1 hour and 30 minutes by train or up to two hours by car.

Liverpool 1 hour and 30 minutes by train or a little over 2 hours by car.

London 2 hours by train or around 3 hours and 30 minutes by car.

Edinburgh under 4 hours by train.

Amenities

Shopping

There are shops across the city where you can find everything you need. These range from independent boutiques to a shopping mall full of international shops and British classics, like Marks and Spencer.

Entertainment

There are music venues, sports arenas and theatres all within walking distance or a short tram ride from the International College. Whatever you are looking for, you'll find it.

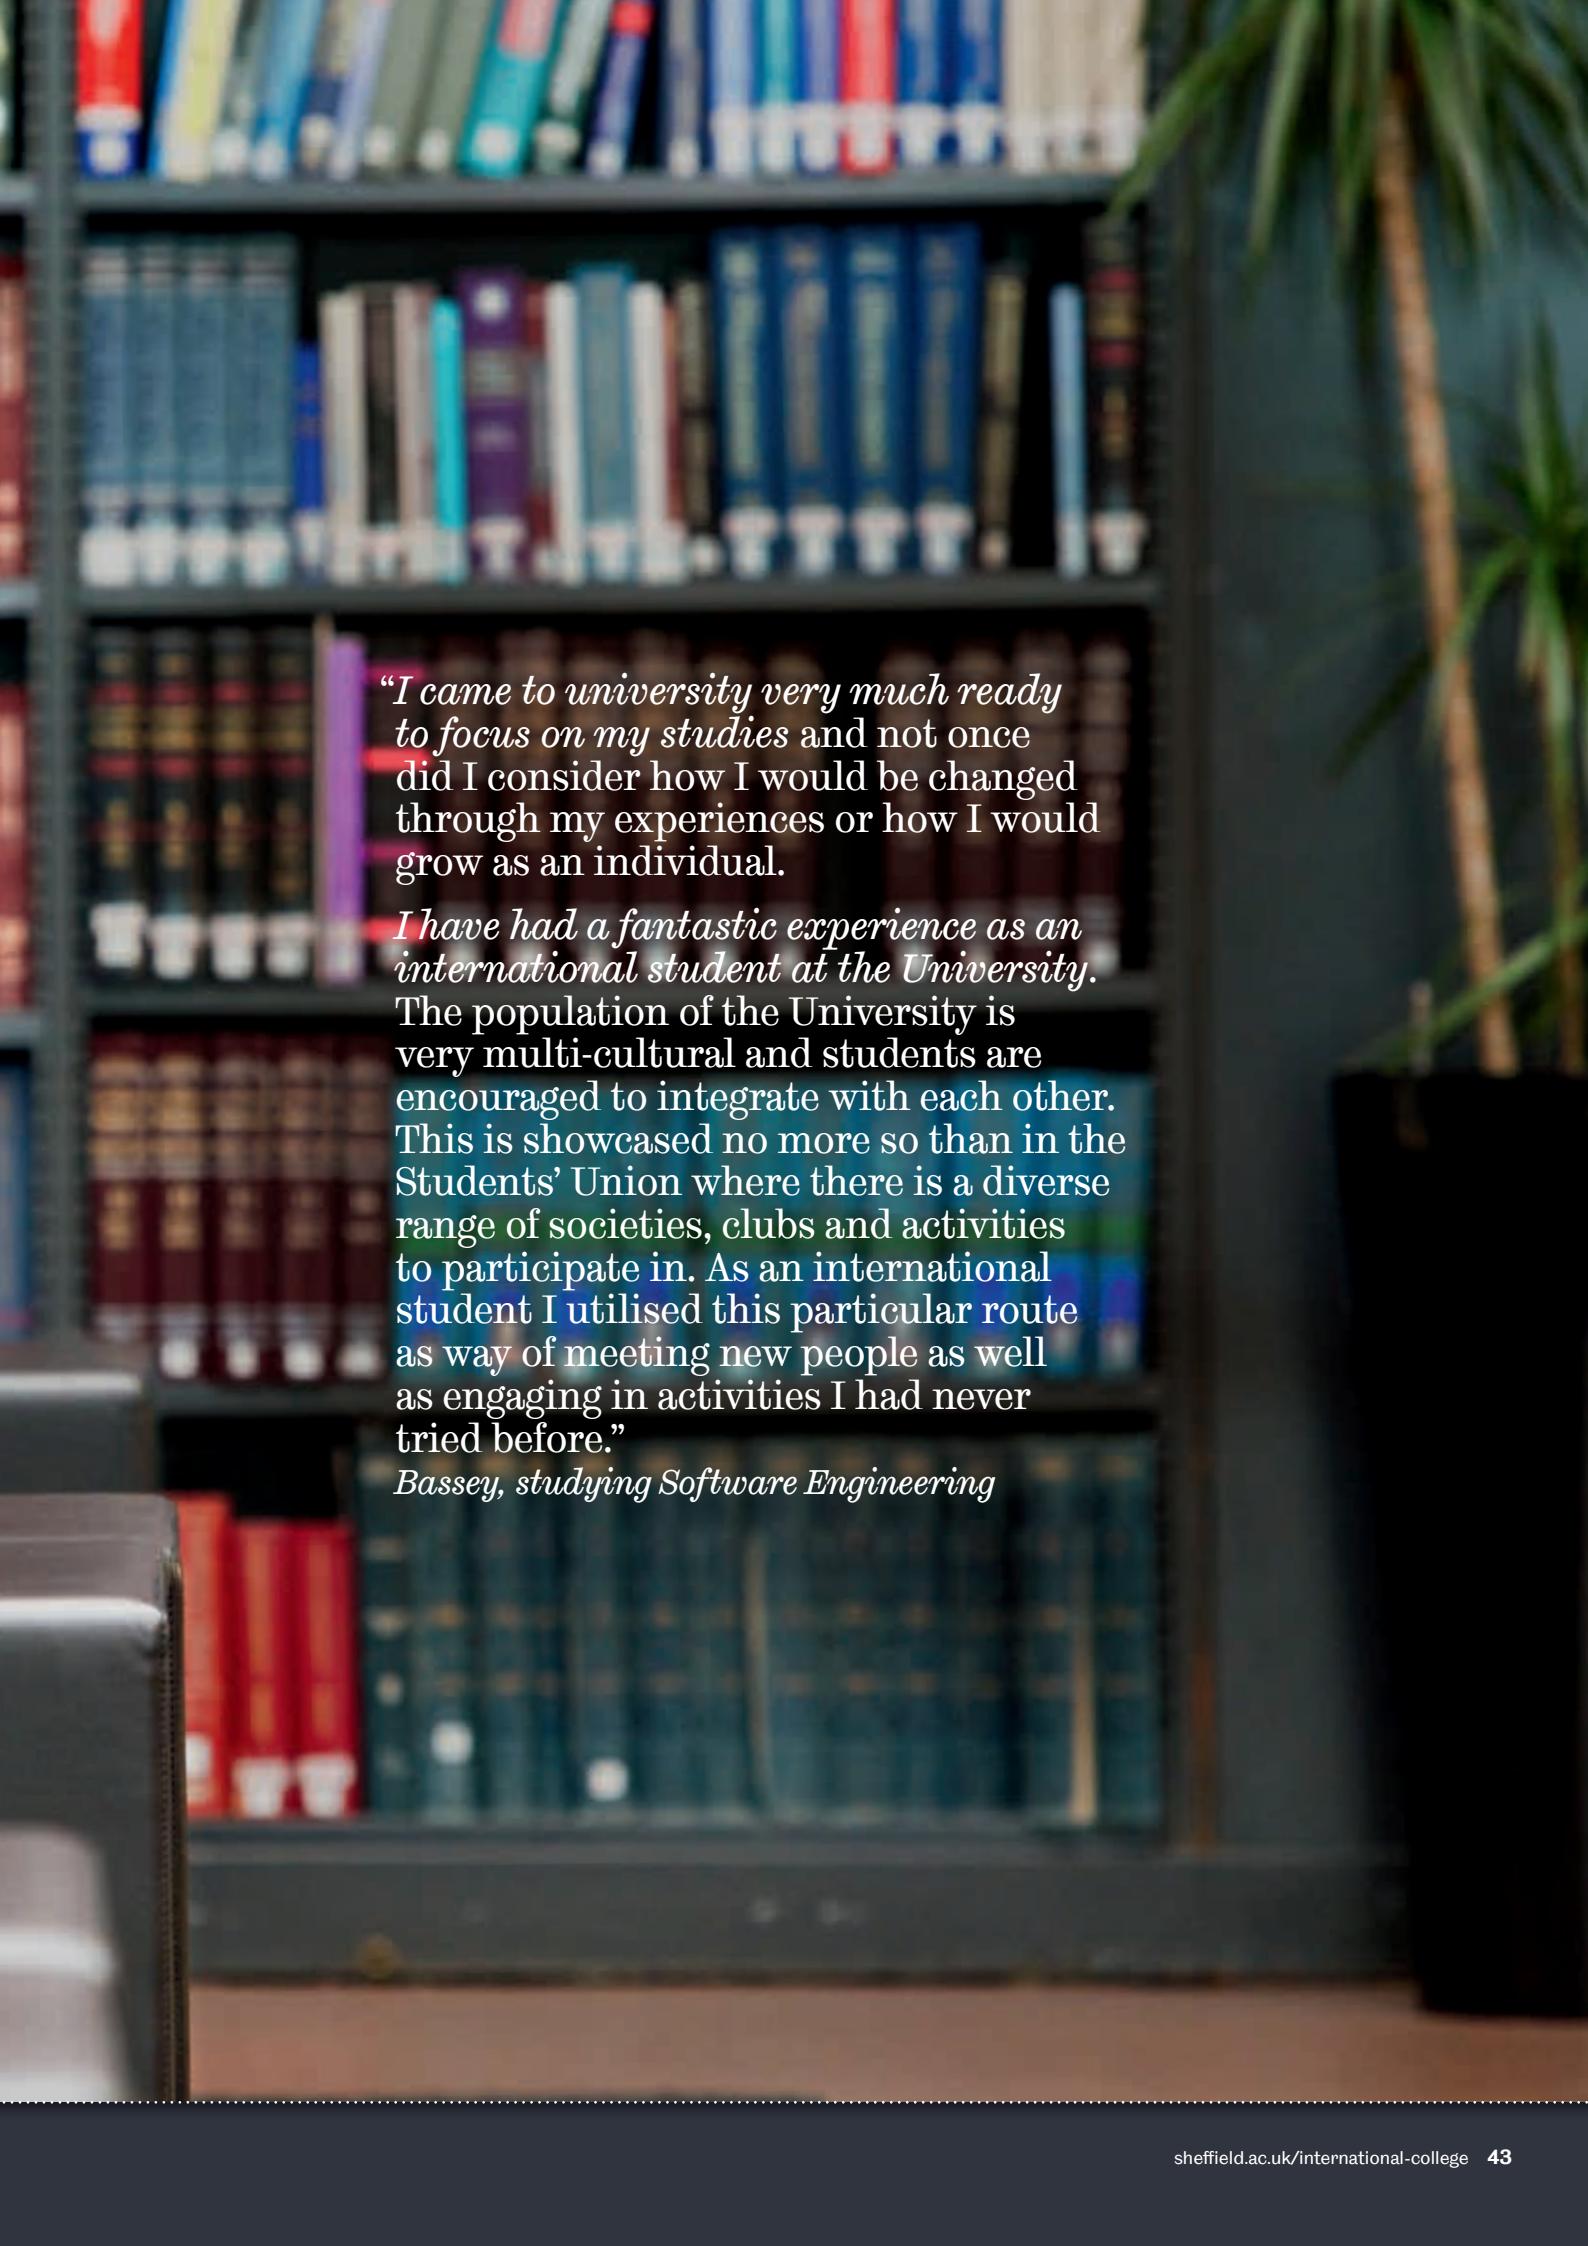

Peak District

Part of the Peak District National Park is within Sheffield's city boundaries. You can walk there or take a bus or train to enjoy the local countryside.

A young Black man with short, curly hair is sitting on a grey couch in a library. He is wearing a blue long-sleeved button-down shirt and dark trousers. He is holding an open book in his hands, looking down at it. In the background, there are tall bookshelves filled with books. On the left side of the image, there is a dark blue rectangular overlay containing text.

Sheffield.

"I came to university very much ready to focus on my studies and not once did I consider how I would be changed through my experiences or how I would grow as an individual.

I have had a fantastic experience as an international student at the University. The population of the University is very multi-cultural and students are encouraged to integrate with each other. This is showcased no more so than in the Students' Union where there is a diverse range of societies, clubs and activities to participate in. As an international student I utilised this particular route as way of meeting new people as well as engaging in activities I had never tried before."

Bassey, studying Software Engineering

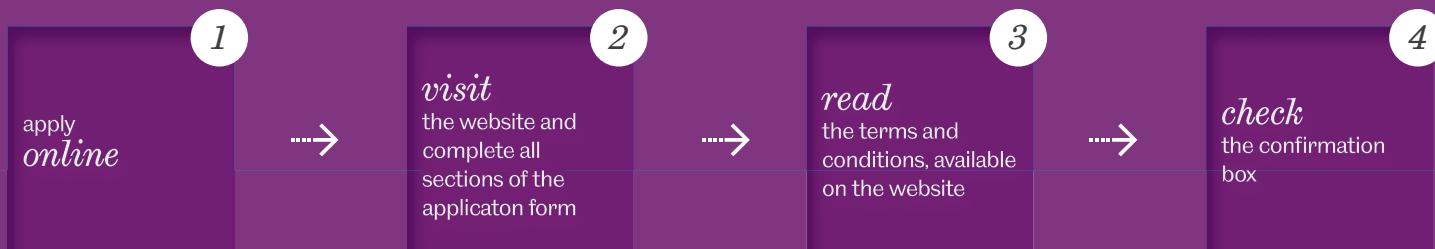

How to apply

You can apply to the University of Sheffield International College through your local education agent or directly via our website. Whichever option you choose, we're available to help at every stage.

Scholarships available

The University of Sheffield International College awards scholarships to some of the best students each year to help support their studies.

You will be eligible to apply for the Made in Sheffield Scholarship once you have an offer of a place at the College. Students applying for the scholarship will complete an online test and those who achieve the best results will receive an award. For more information about the Made in Sheffield Scholarship, visit our website.

"The University of Sheffield is a top university in the UK and in the world.

If you get a degree from here, it will make it easier for you to get a job, because you're from the University of Sheffield. When I think of last year's graduates, most of them have got a good job already."
Salar, studying Molecular Biology and Biotechnology

Your international career. *Made in Sheffield.*

All over the world, graduates from the University of Sheffield are making a name for themselves. Many are pioneers in their chosen fields. Thousands are proud to say their careers were 'made in Sheffield'.

Internationally recognised qualifications

For international students, a qualification from the University of Sheffield is recognised by industry, academic institutions, governments and civil society organisations as a symbol of true quality. That's because it's known that you have studied with the brightest minds, under some of the best teachers, in a top 100 university that promotes independent thinking and hard work.

A real advantage for the rest of your life

A degree from the University of Sheffield gives you a real advantage. This is the same whether you are aiming to launch an international career, pursue your own research or return home to work.
